

Australia Felix

Textual Apparatus

The following symbols denote states of the text:

<i>TS</i>	=	HHR's final typescript
<i>TSR</i>	=	HHR's manuscript revisions to <i>TS</i> ; the setting copy for <i>EI</i>
<i>EI</i>	=	First English edition, Heinemann, September 1917
<i>EIR</i>	=	Re-issue of <i>EI</i> in November 1917
<i>AI</i>	=	First American edition, Henry Holt, September 1917
<i>E2</i>	=	Second English edition, Heinemann, June 1929
<i>A2</i>	=	Second American edition, Norton, January 1930

The base text for this edition is the final typescript *TS*. It is emended to take in HHR's revisions to *TS* (*TSR*) and variants in *EI* which are judged to be HHR's proof corrections.

Where the adopted reading is from *TS* it appears to the left of the bracket without symbol; when other than *TS* it appears with the symbol denoting its origin. Variant readings with their source symbol appear to the right of the bracket. Unless noted, it can be assumed that subsequent states in the chronological order of the above list agree.

The following symbols and abbreviations are used:

<i>Om.</i>	=	word(s) omitted
<i>Ed.</i>	=	reading supplied editorially
<i>see notes</i>	=	refer to an Explanatory Note in the edition
~	=	repeated word with variant punctuation
<i>P</i>	=	new paragraph
/	=	end of line
#	=	one-line space

References are by page and line numbers. Each page contains 38 lines and the count includes blank lines.
